

Stroke & Speech Programs, Services, and Information

Northeast Ohio and National Resources

Compiled by the Members of the Cleveland Hearing & Speech Center Speak Easy Program
Updates available on the Cleveland Hearing & Speech Center Speak Easy Website:
www.chsc.org/speakeasy (scroll to the bottom of the page)

Updated: 12/17/2015

Caregivers and Stroke Survivors who participate in Speak Easy and area stroke clubs compile and maintain this list of helpful services that we use and highly recommend. Our hope is that it is helpful to new stroke survivors as well as long-time stroke survivors looking for new resources.

Our list has grown over the years as new members have contributed and as we have become better consumers and advocates. To help you navigate the list, here are some frequently asked questions:

- 1) What's new? Where can I learn the newest information about stroke, aphasia, & depression?**
 - a. See page 2 (the next page). These links will get you started.
- 2) What are the best Stroke Programs in NE Ohio?**
 - a. See page 4. These are our favorite local programs and providers.
- 3) How do I get to know people? How do I get connected with Stroke Resources?**
 - a. See page 5 –6. We recommend that you come to a support group.
 - a2. See page 6 for our favorite exercise programs. People who exercise are in the know.
- 4) Where are the clinical trials in Ohio?**
 - a. See page 7 for Clinical Trial information, call the phone numbers for updates.
- 5) Where are the inpatient rehabilitation facilities in NE Ohio?**
 - a. See page 8 for information about NE Ohio inpatient rehabilitation hospitals.
- 6) Who provides intensive outpatient programs, day care, in-home care, & special services?**
 - a. See pages 9 and 10 for the ones that we use and recommend
- 7) Who provides braces, crutches, walkers, hand night brace, Walk Aid, and special shoes?**
 - a. See page 10 for prostheses and orthotics providers.
- 8) Who are the best physicians, dentists, and therapists—professionals who understand stroke issues and will do their best to help me?**
 - a. See page 11 for a list of our favorite medical professionals.
- 9) Transportation is a big problem in Cleveland. Where can I find info and alternatives?**
 - a. See page 12 for public and private transportation information.
- 10) How do I find neighborhood resources and someone I can ask for a referral?**
 - a. See page 13 for comprehensive lists, directories, and people you can call.
- 11) Where can I learn about national research, chat rooms, debates, stroke advocacy and national intensive programs?**
 - a. See pages 14 – 17 for national resources.
- 12) What aphasia and communication education, software, books, and resources do you like?**
 - a. See pages 18 through 22. Speak Easy members & CHSC have many of these resources that you can examine.
- 13) Where can I learn about dining and travel advice?**
 - a. See page 23-24 for our best advice.
- 14) Where can I send my comments about this list?**
 - a. Email: Debbie Felt Debbie@gulbranson.com or Michelle Foye mfoye@chsc.org

What's New? Important Information and Educational Resources

Important Medicare/Disability Rule Changes*

Medicare will be prohibited from denying skilled therapy in most settings simply because there is a lack of functional progress. For more information see: <http://www.medicareadvocacy.org/medicare-info/improvement-standard/>. *Medicare can no longer deny payments based on improvement.

Software for Communication Practice for Windows PC or on the Web

- *We recommend that you download free demo's or try out the programs in our lab before purchasing. A couple of minutes practice can save money and frustration.*
- *There are a lot of techies in our groups. If you want to try out a program, just ask. Someone will have a copy of the program that you can try out. Deb has most of them on her laptop.*

Bungalow Software: Multiple Choice and Fill-in the blank. (Download free one month trial or order a trial CD for \$9.50. Modules can be purchased.) <http://www.bungalowsoftware.com/> Use for practice. Versions in Windows. Currently available in the Speak Easy lab and can be used at no cost to you.

More Speech Software: Web-based program with modules for speaking, reading, writing, and memory. Can be downloaded on any computer or smart phone. Made by Bungalow Software. Free download for two weeks. Subscription fee is \$24/month. <http://morespeech.com/>

Parrot Software (\$25/mo Web Subscription) <http://www.parrotsoftware.com/> Use for practice. Web-based software: features available for Windows/Mac or any computer or phone that has Web access.

Aphasia Toolbox (Pittsburgh) (Free to individuals with online therapy, contracts with organizations available). www.aphasiatoolbox.com. Web based software: Windows/Mac. Use for practice.

www.Rewordify.com (Free) Copy/paste passages into the Website and it will simplify written words.

www.ManyThings.org (Free) Interesting word lists, games, etc. -- ESL (English as a Second Language).

Natural Reader (Free) <http://www.naturalreaders.com/>. Reads whatever is highlighted on the computer screen. Windows, Mac, Internet Explorer, MP3. Use for reading or proof-reading.

Sentence Shaper <http://sentenceshaper.com/the-company/> (Free trial) Helps survivors build speech sentences, clever but complicated.

WordQ and SpeakQ by Qullsoft <http://www.gogsoftware.com>. (\$159 for WordQ and \$69 for SpeakQ. Free one month trial downloads available). Works with any Microsoft program (Word, Excel, Powerpoint, Internet Explorer, etc.). Word Q is for PC or Mac; Speak Q is for PC only. Use for writing (word predictor), reading, and proof-reading.

Directories of Aphasia Software: <http://www.aphasiasoftwarefinder.org/evaluation/free-trial> , <http://www.propeller.net/>

Text to Speech E-Books & Audio Books for E-Readers, iPads, and PCs (NEW)

Libraries have audio books that can be checked out and downloaded. Contact your library for instructions.

Kindle Fire and Kindle Fire HD has excellent text to speech capability. Books can be downloaded by www.Amazon.com . Many books also can be linked to professionally read audio books so the text is highlighted as the actor is reading.

Nook has e-book and audio book capability. A good source for downloading books for the Nook is: www.Audiobooksnow.com

PC & iPads, Phones, iPods, etc. See www.amazon.com and www.audible.com .

Good Apps for Reading Text Aloud on the iPad:

- Voice Dream \$10
- Speak it \$ 2
- VBOOKZ \$ 5
- Search on the Web: "Text to Voice Read E Pub"

Also note: audio books can be checked-out from libraries. The libraries even have tech experts to do it for you. Several Speak Easy members download library books and can help you.

For a step-by-step guide for downloading books to e-readers contact Deb.

Books and Cards for Communication Practice

Accessible Dining, Hotel Rooms, and Travel Recommendations

(Great article: <https://clevelandstrokeclub.files.wordpress.com/2007/08/sun-fun-3-9-15.pdf>)

Accessible Dining

Most restaurants will accommodate you, if you call ahead. If you make a reservation, come a little early and if you can't come, make sure you that you call and cancel. **Here is a list of services that many restaurants will provide, if you call ahead.**

- Even when a restaurant has steps at the main entrance, they may have **wheelchair accessible door** in the back or side. Some restaurants will provide a **ramp** for you.
- Restaurants can **reserve a table** that meets your needs—table by the bathroom, etc.
- If you call ahead, restaurants can **reserve parking for you or offer valet parking** or escort you into the restaurant. If you need to double-park to drop-off, let the hostess know.
- Many restaurants give better service on **off-hours**: 11:00 or 1:00 for lunch; or early bird at 5:00 for dinner. We avoid trendy bars and restaurants on Friday and Saturday nights, and visit them during the week. For weekend nights we dine early or chose a quiet neighborhood restaurant.
- If you need help reading a menu, waiters will help, but we recommend that you **get a copy of the menu ahead of time** (online, stop by, or call and ask about specials).
- Some of the older restaurants have restrooms in the basement. Do not assume this is the only restroom. Many restaurants also have **one-person restrooms** for the staff on the main level.
- If you have a favorite restaurant that is not accessible, stop-by and **talk to the owner**. Many owners, especially of locally owned establishments, will find a way to keep good customers.

After you arrive at the restaurant:

- You can request that the **cook cut your food** (salad, meat, or sandwiches). You can ask the wait staff to help you with **packaging**—creamers, sugar, wrapped napkins, etc.
- Managers and receptionists can help you **open doors** (outside doors and bathroom doors). If the handicap access doors or cutouts are blocked (or not shoveled) tell the hostess or manager.

Reserving Accessible Hotel Rooms

It is not enough to call a hotel and ask for a handicap room or reserve a handicap room online.

People with disabilities have very different needs. The earlier that you make a reservation, the more likely that your needs will be met. Assume you will tire easily, your routines will be disrupted, and you will spend significant time in your room. Safety, comfort, and food availability are not optional. Here are some questions to ask.

- **Bathroom Grab Bars**. You can ask for bars to be on the right side or the left side of the toilet. Many of the new hotels have rooms with both options and can meet your needs for safety.
- **Shower seat**. Many of the newer hotels have walk-in/wheel-in showers. If the bathroom does not have a drop-down shower seat, you can request a shower seat. If you need a heavy duty shower seat, request one when you make the reservation or bring your own. (Don't assume heavy duty equipment.)
- **Bedside Commode**. If you need a bedside commode request one when you make the reservation. Many of the commodes are all-in-ones that can also be used as a shower seat and high-rise toilet seat with bars. Again, if you need heavy duty equipment: bring it, send one to a friend who lives nearby, or request it.

Travel Resources

- **Lounge chair.** Request a lounge chair before you make the reservation. Many of the rooms have only a love seat, which does not provide adequate back support and leg elevation.
- **Food.** There is really nothing nicer than crashing and dining in. When looking for a hotel, choose one with a good restaurant and room service, or breakfast and happy hour buffets, or kitchen and shopping service.
- **Handicap parking and accessibility of the room.** Handicap rooms are usually in the corners on upper levels. It's a lot of walking. If you want ground level and closer parking, ask for it.
- **Appliances.** If you are going to staying for several nights, you can request a toaster oven, kettle, microwave, or whatever you need to heat up a few meals. It doesn't hurt to ask.
- **Accessible Vans.** Buses and hotel vans often **do not** have continuous grab bars from the curb to the seat (there's a large space where the driver sits and often a step from the aisle to the seat). If the hotel has a wheelchair accessible van, stroke survivors can **ride on the wheelchair lift**. Just ask the driver. Ask the hotel to help you reserve appropriate transportation.
- **Laundry service** is important for extended stays.
- **Extras.** If there is a walk-in shower you will need **extra towels** to wipe water off the floor, for safety reasons. You will also need **extra wash cloths** for refreshing yourself (the air in hotels is very dry), and **extra drinking glasses** for medication. You can ask for these items at the front desk the first night and then request it from room service after that.
- You may want to **invite friends to visit you at your hotel** to enjoy the pool and/or buffets, instead of visiting at their homes. If they visit you, you do not have to worry about accessibility and comfort—when you get tired just send them to the lobby to continue their conversation.

Additional hotel services

- **Pharmacy.** The desk clerk can help you get the medication you need. If you run out of prescription medication, a pharmacy can dispense small quantities until they can check with your physician or pharmacy back home. Many hotels have a van service and can pick-up your medication or medical supplies, or they can arrange for delivery. Hospitals can dispense meds.
- If you want your **room temperature** warmer or cooler, talk to the room service attendant or leave a note. They will accommodate your request.
- **Emergency. Dial "0" and ask the desk clerk to dial 911.** The clerk will assist you. Make sure you take identifying information and a list of medications with you to the hospital.

Travel Planning Recommendations by Dr. Elizabeth Dreben

- Have realistic expectations
- Include fun and relaxation for all: don't overtire the survivor
- Advanced planning is essential...ask the stroke survivor their preferences, don't assume
- Information will help reduce the anxiety
- Prepare a list of usual routines and medicines: what is needed, helpful, and not required
- Prioritize and be willing to cross things off
- Build in rest periods
- Be flexible and of good humor: be willing to make midcourse adjustments

Here are some Websites with lists of travel agencies and organizations that will assist:
