

Who we serve

We serve people of all ages: infants, children, adults and seniors.

Payments accepted

- Self-pay clients are always welcome.
- CHSC is a provider for Medicare and many Medicare Advantage plans
- CHSC is a provider for Medicaid and many Medicaid managed care plans
- CHSC contracts with many commercial insurance plans
- **Audiology Patient Assistance (APA) Program**
The APA program provides hearing testing, hearing aids, assistive devices, hearing aid repairs and professional services at a reduced cost for those with limited financial resources. Eligibility is determined based on completion of an application, including proof of income.

Many insurances now cover hearing aids, please contact us to see if hearing aids are covered by your plan!

Hearing aid use positively affects quality of life for both the hearing aid wearer and his or her significant other.

– (National Council on Aging)

Cleveland Hearing & Speech Center is the premier provider of hearing, speech-language, and deaf services, education, and advocacy, helping people connect through communication.

AUG2022

Hearing Services

We believe that life is improved by successful communication.

We are dedicated to helping people hear better so they can fully enjoy the people and activities that bring meaning to each day.

Hearing Services

Early assessment, early identification and early intervention can make all the difference in the life of a child with hearing loss.

Hearing Evaluations

Proper treatment of hearing loss begins with a complete hearing evaluation. Experienced CHSC audiologists and Hearing Instrument Specialists provide hearing evaluations using state-of-the-art equipment.

Hearing Aids

CHSC dispenses a full range of hearing aids from several manufacturers. We offer many options to meet a variety of listening needs and lifestyles. Hearing aids can include advanced features such as connectivity to cell phones and TV, tinnitus maskers, automatic feedback, and rechargeability.

Professional Services

Purchased your hearing aid elsewhere and need assistance? CHSC is happy to help with programming, cleaning, adjustments, and repairs.

Assistive Listening Devices (ALDs)

ALDs can be used to supplement hearing aids. Examples include household alerting devices such as a vibrating alarm clock or a flashing doorbell.

Contract Services

CHSC partners with community facilities, such as senior living centers, to provide basic, onsite audiology services.

Community Education

Hearing screenings and educational talks are offered at community agencies. CHSC often participates in health fairs and other events.

Auditory Processing Assessments

CHSC audiologists offer in-depth testing for children and adults. Testing may be appropriate when a person has difficulty "hearing" but audiologic testing suggests normal hearing sensitivity.

Cochlear Implant Services

CHSC works collaboratively with local surgeons to provide cochlear implant services including candidacy evaluations, device selection, activation, mapping, and follow-up care for children and adults.

Early Intervention

In partnership with Ohio's Help Me Grow program, we provide family-focused intervention for infants and toddlers (birth to 3 years) who are deaf or have hearing loss.

Educational Audiology

CHSC provides audiologic services in several local school districts to ensure children with hearing loss receive access to quality education.

Hearing Conservation

CHSC offers Sound Choices™ - an online curriculum geared toward 9-12 year olds. This curriculum can be used by teachers (music, health, science) or by parents. Please visit www.chsc.org/soundchoices for more information.
